Manager Reinvestment in EJFI Shares

The Board of EJFI, which provides investors exposure to a diversified portfolio of regulated debt issued by smaller US banks and insurance companies and participation in certain management fee income streams of EJF Capital LP, has been notified that, EJF Capital Limited, an affiliate of the Manager, has utilised approximately 10% of the Q1 2026 EJFI management fee to purchase 14,719 ordinary shares of the Company on 19 May 2026. This purchase concludes the Manager’s previously announced plan to reinvest up to 10% of the EJFI management fee earned for at least four quarters, for so long as the average share price during the prior quarter traded at least 15% below the Net Asset Value (NAV) per share at the prior quarter end. To date, EJF Capital Limited has bought a total of 218,349 ordinary shares under the current re-investment program and the previous 2024-2025 re-investment program.

The Manager has informed the Board that for at least the next four consecutive quarters (Q3 2026 – Q2 2027) it has decided that either the Manager or an affiliate will re-invest an amount equal to approximately 10% of the Manager’s EJFI management fee earned on the same terms as before. The Manager may elect to continue with this program beyond Q2 2027 and will announce any such decision in the future.
